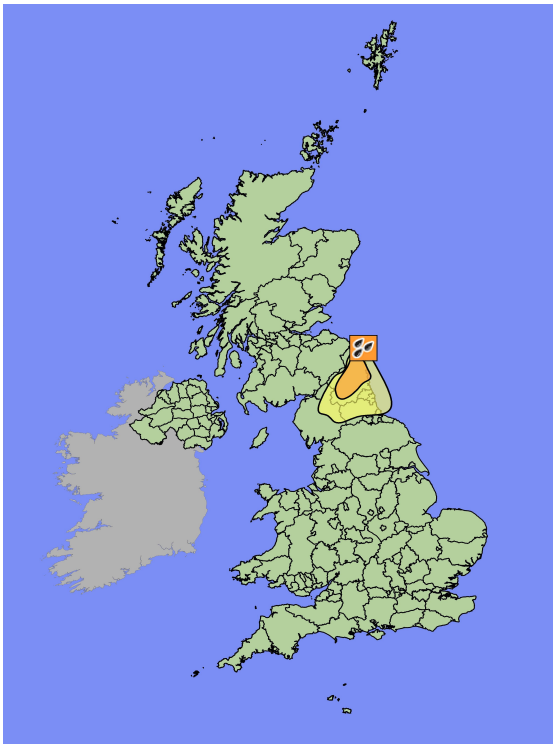
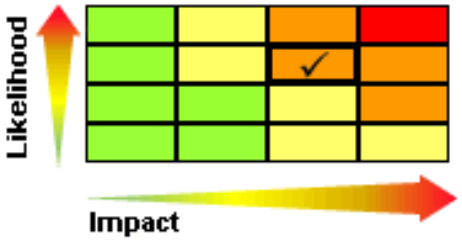
National Severe Weather Warning Service





Chief Forecasters Assessment
Further rainfall accumulations of 20 to 40 mm are expected widely, with a risk of localised totals of 70 to 100 mm across northern Northumberland.

The Met Office have issued an **Amber Warning** of **Rain**

Valid from **12:00 on Sat, 06th Aug 2011** until **12:00 on Sun, 07th Aug 2011**

An area of heavy and thundery rain will continue to affect parts of northern England for the rest of today. The rain should gradually become confined to Northumberland this evening and overnight, where it will persist into Sunday morning.

The public should be prepared for standing water and localised flooding which could affect travel and outdoor activities.
